A Quilty Mystery

CLUE 5

This is the last clue & Reveal for this year's mystery quilt. Please follow the block assembly instructions on the following pages and the border assembly instructions below. We hope you love it as much as we do.

Cut the final borders:

From Accent 1: Cut 7 – 1 ½" strips width of fabric for the inner border
From Accent 2: Cut 8 – 4 ½" strips width of fabric for the final outer border

Assemble the blocks and outer border blocks according to the picture and measure the length and width to add your final borders. (the Main Block 1 pairs with the outer Block B and the Main Block 2 pairs with the outer Block A, then you have the 4 outer corners.

Join the Accent 1 strips together into one long strip
Join the Accent 2 strips into 4 – strips long.
You will measure and cut the final borders from these to fit your quilt measurements.

Ideally your blocks should measure 16 ½" square and the outer blocks should measure 4 ½" by 16 ½". The corner blocks should measure 4 ½" square. Once you assemble the center of your quilt, it should measure 56 ½" by 72 ½". The 2 outer borders will measure 5" finished on each side giving you a final size of 66" by 82" approximately.
